Implementation Date: July 3, 2017

Healthcare Provider Taxonomy Codes (HPTCs) April 2017 Code Set Update

Provider Types Affected

This MLN Matters® Article is intended for physicians, other providers, and suppliers submitting claims to Medicare Administrative Contractors (MACs), including Home Health and Hospice MACs and Durable Medical Equipment MACs, for services provided to Medicare beneficiaries.

Provider Action Needed

Change Request (CR) 9869 instructs MACs to obtain the most recent Healthcare Provider Taxonomy Code (HPTC) set and to update their internal HPTC tables and/or reference files.

Background

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) requires that covered entities use the standards adopted under this law for electronically transmitting certain health care transactions, including health care claims. The standards include implementation guides which dictate when and how data must be sent, including specifying the code sets which must be used. The institutional and professional claim electronic standard implementation guides (X12 837-I and 837-P) each require use of valid codes contained in the HPTC set when there is a need to report provider type or physician, practitioner, or supplier specialty for a claim.

The National Uniform Claim Committee (NUCC) maintains the HPTC set for standardized classification of health care providers, and updates it twice a year with changes effective April 1 and October 1. These changes include the addition of a new code and addition of definitions to existing codes.

Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents. CPT only copyright 2016 American Medical Association. All rights reserved.

You should note that:

1. Valid HPTCs are those that the NUCC has approved for current use.
2. Terminated codes are not approved for use after a specific date.
3. Newly approved codes are not approved for use prior to the effective date of the code set update in which each new code first appears.
4. Specialty and/or provider type codes issued by any entity other than the NUCC are not valid.

CR9869 implements the NUCC HPTC code set that is effective on April 1, 2017, and instructs MACs to obtain the most recent HPTC set and use it to update their internal HPTC tables and/or reference files. MACs will implement the April 2017 HPTC update as soon as they can after April 1, 2017, but not beyond July 3, 2017. The HPTC set is available for view or for download from the Washington Publishing Company (WPC) at <http://www.wpc-edi.com/codes>.

When reviewing the Health Care Provider Taxonomy code set online, you can identify revisions made since the last release by the color code:

- New items are green
- Modified items are orange
- Inactive items are red

Additional Information

The official instruction, CR 9869, issued to your MAC regarding this change is available at <https://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/2017Downloads/R3723CP.pdf>.

If you have any questions, please contact your MAC at their toll-free number. That number is available at <https://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/Medicare-FFS-Compliance-Programs/Review-Contractor-Directory-Interactive-Map/>.
