

## Access 20+ Specialty eLearning Courses for ICD-10 in an All New Way

2015-11-12

If you know about SuperCoder's specialty-specific ICD-10 eLearning courses, you know that each carefully designed audiovisual presentation cuts out time-wasting filler material to zero in on the ICD-10 guidelines and code changes that matter most to an individual specialty.

Now, that specialty specific, high impact information is available in an all new way! You can order a PDF file of the slides from the presentation so you have access to all the great tips and strategies on clinical documentation improvement, code changes, relevant rules, and examples right at your fingertips.

Available courses include:

- Cardiology
- Dermatology
- Endocrinology
- ENT
- Family Practice
- Gastroenterology
- General Surgery
- Gynecology
- Hematology
- Internal Medicine
- Mental Health/Substance Abuse
- Neurology
- Obstetrics
- Oncology
- Ophthalmology

- Orthopedics
- Pathology/Lab
- Pediatrics
- Physical Medicine/Rehab
- Podiatry
- Pulmonology
- Urology.
