Access CPT® 2013 Codes on SuperCoder's Code Search Page – Included in Search Subscriptions

Every fall, we're anxious to get information on the upcoming CPT® code changes. Fortunately, with any subscription containing Code Search, that info is already at your fingertips and printable too.

The CPT® 2013 codes as well as previous years' code change information are now live on SuperCoder.com. You can access the 2013 codes on the Code Search page by clicking the button titled CPT® 2013 Code Changes as shown below:

To locate a code's historical information, go to the code's code details page and scroll down to the last box in the left-hand column titled Upcoming and Historical Information:

CPT® CODE 96365 DETAILS

"Last year, around this time, SuperCoder had available on the website a synopsis of CPT® changes for the coming year, divided by section," says Lynda Kross with Chaparral Medical Group Inc in California. "It was a great tool to print out per section to show my doctors the changes specific for their specialties."
