

Get In-Depth Info on New Occupational Therapy Eval Codes in Latest CPT® Assistant

2017-04-10

The February 2017 CPT® Assistant takes you step by step through selecting the correct level for the occupational therapy evaluation codes added in 2017. The issue also provides examples and procedure descriptions to improve your knowledge of codes for spinal stabilization/distraction device insertion and spinal cord nerve root endoscopic decompression.

You can access these articles on SuperCoder Code Connect by searching these codes and keywords:

- Occupational Therapy Evaluation: 97003, 97004, 97165-97168
