

Dig In to CPT® 2016 Updates With Advice on SuperCoder – Available Now!

2015-10-14

You can start right now to get a jump on the CPT® 2016 updates coming your way in January. SuperCoder has posted CPT® 2016 information in two convenient spots, along with advice from the SuperCoder team on proper use.

Coding menu: When you're logged in to your account, choose Coding Tools from the top menu. On the left-side menu, select Coding/CPT®/2016 Code Changes. In the page that opens, choose a code section for an at-a-glance review of the additions, revisions, and deletions for 2016 along with advice and analysis.

Code details pages: Code details pages for revised and deleted codes feature the Advice under the code's official descriptor. Check out examples at the page for revised-for-2016 code 81210 and deleted-in-2016 code 82486. Code details pages for added codes will be available Jan. 1, 2016.
