

Discover What Intuitive Coder for Orthopedics Can Do for You

2016-02-24

As a Bolt reader, you may have seen news in previous issues about BoneCoder, SuperCoder's ICD-10-CM workflow solution.

BoneCoder now has a new name: Intuitive Coder!

The new name better represents this unique, user-friendly approach to ICD-10-CM coding and also makes it clear that the tool can assist you with coding much more than bone-related conditions.

[Click here](#) to learn more about Intuitive Coder for Orthopedics, which helps you find ICD-10-CM code combinations in seconds by clicking on anatomic images and simple pick lists.
