The screenshot shows the top navigation bar of the AHA Coding Clinics website. It features five main categories: 'Publications' (highlighted in blue), 'AMA CPT Assistant', 'Coding Newsletters', 'Government', and 'Survival Guides'. Each category has a corresponding icon and a numbered callout bubble (1-4). Below the navigation bar, the main content area displays an 'Anesthesia Coding Alert' article. The article title is 'Anesthesia Coding Alert' and it includes a search bar with the text 'Enter a code or keyword'. Below the search bar is a list of years from 2014 to 1999. The article content is titled 'Anesthesia Coding Alert - 2014; Volume 16, Number 8' and includes a 'Take Quiz' button. The article text is partially visible, showing sections like 'Medical Direction: Work With Your Carrier to Define 'Short Duration' and Meet Criteria', 'ICD-10: Check Surgeon's Record for Necessary Details About Acute on Chronic Respiratory Failure', 'Compliance: Proposed CMS Rule Could Relieve Your 'Meaningful Use' Deadline Stress', '63707 or 63709 Best Options for Gelfoam Epidural Repair', 'Focus on Anesthesia Codes When Not Administering Injection', 'Documentation Guides Whether 64448 and 99231 Are Allowed Together', and 'Remember Modifier 50 for 62211/77002 Claim'.
