

# Tap Into LCD Lookup Tool's New Search Options and Expanded Results

January 30, 2014

On Feb. 3, 2014, SuperCoder's popular LCD Lookup tool will add to its arsenal of user-friendly features to make finding payer policies even faster and simpler.

## Choose between CPT®/HCPCS and LCD title search

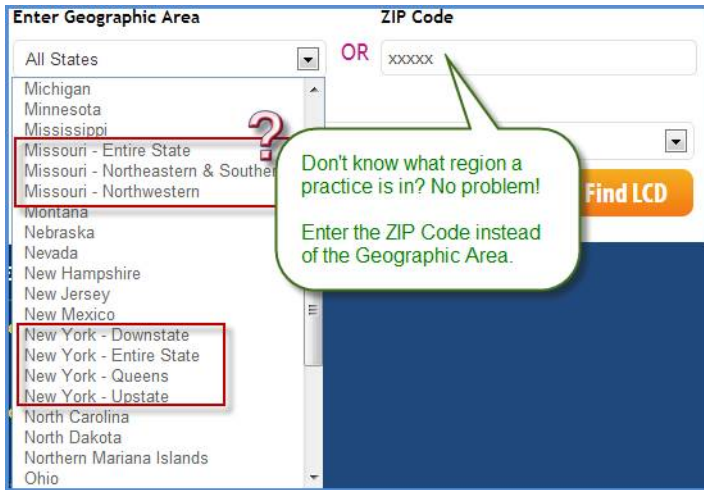

A new LCD Lookup feature will make it easier to find the LCD you need. If you want to search by CPT® or HCPCS code, enter the code in the Search by Procedure box. If you know a word or phrase in the title of the LCD, you can enter that in the LCD Title box.

The screenshot shows the LCD Lookup tool interface. At the top left is the title "LCD LOOKUP". A callout box with a blue border and rounded corners contains the text "Start your search by code or by LCD title keyword". Two blue arrows point from this callout to the "Search by Procedure" and "LCD Title" input fields. The "Search by Procedure" section includes a text input field labeled "CPT/HCPCS Code". The "LCD Title" section includes a text input field labeled "Keyword(s) (Title only)". Below these are two "OR" options. The first option is "Enter Geographic Area" with a dropdown menu showing "All States". The second option is "ZIP Code" with a text input field containing "xxxxx". At the bottom left is a "Select Contractor Type" dropdown menu showing "All Types". At the bottom right is an orange button labeled "Find LCD".

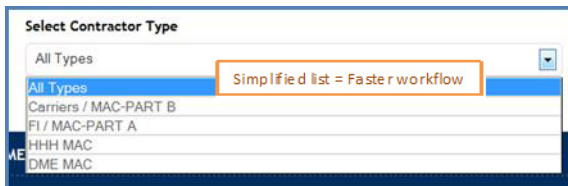

## ZIP Code option streamlines search process

You'll have two options when you want to narrow your LCD search by location. Choose from a dropdown list of geographic areas or enter the ZIP Code that applies to the claim.

#### 4 fee types make the search speedier

You'll be able to make quick work of choosing your contractor type in the upgraded LCD Lookup. Instead of sorting through a long list of options, you'll be able to make a quick pick from 4 fee types.

#### 1 click opens payer's related coding articles

LCD Lookup will offer more information than ever before, helping to keep your coding on track. When you select an LCD, you'll be able to access articles that the payer has published related to its LCD. You'll also find links to any associated NCDs and to all versions of the LCD (e.g., archived versions) available on CMS.gov.
