

News: Feedback Wanted! Test Drive 3 New Features in the Upgraded LCD Lookup Beta

2013-12-02

Calling all LCD Lookup subscribers! SuperCoder has launched LCD Lookup Beta, and your professional opinion is needed. This upgraded version includes 3 great new features to make quick work of finding applicable LCDs:

- Locate LCD by ZIP as well as by region.
- Select contractor type by fee type: Part B, Part A, HHH, or DME.
- Choose the CPT® Codes tab to see the CPT® codes in the policy.

Please give the LCD Lookup Beta a whirl. Then click the Feedback button on the LCD Lookup Beta page to send your comments to the SuperCoder team.

The screenshot displays the LCD Lookup Beta interface with three callouts highlighting new features:

- Enter Geographic Area:** A callout points to the "ZIP Code" field, stating: "Don't know what region a practice is in? No problem! Enter the ZIP Code instead of the Geographic Area." The "Find LCD" button is also visible.
- Select Contractor Type:** A callout points to the "All Contractor" option, stating: "No need to know old or new contractor name. Just look up by fee type." The dropdown menu shows options: All Contractor, Carriers / MAC-PART B, FI / MAC-PART A, HHH MAC, and DME MAC.
- CPT Codes Tab:** A callout points to the "CPT Codes" tab, stating: "See CPT Codes included in the policy." The "ICD Codes" tab is also visible.

Additional callouts include:

- "Jump to more info about the code." pointing to a note about CPT codes.
- "99183 Physician or other qualified health care professional attendance and supervision of hyperbaric oxygen therapy, per session" pointing to a specific CPT code.
