

Spring CCI Edits, Fees, MUEs Active April 1 - and on Super Coder.

April 2, 2013

Medicare's quarter two Fee Schedules and CCI Edits are all available on Super Coder. New version 19.1 of the Correct Coding Initiative (CCI) and Outpatient Prospective Payment System (OPPS) CCI are live on Super Coder along with eight other data sets that are effective April 1, 2013.

With no hassle to you, Super Coder.com updated the Physician Fee Schedule, Average Sales Price (ASP), Durable Medical Equipment (DMEPOS), Ambulatory Surgery Center (ASC) Fees, Local Coverage Determinations (LCD) and Medically Unlikely Edits (MUEs). Super Coder also introduced five new HCPCS codes and retroactive CCI 19.0 edits.

Medicare did not release a new Clinical Laboratory Diagnostic Fee Schedule (CLAB).
