

# SuperCoding on Demand Submit Button

October 22, 2012

## Now You Can Attach Chart Notes When You Ask a SuperCoding on Demand Question

SuperCoding on Demand customers now have a more efficient way to submit their supporting documentation for coding review. When a user asks her coding question, she can submit a PDF of the chart note, operating report, evaluation of benefit (EOB), or any other item she wants considered in her query. "This will really help us deliver answers even faster as we will have the file immediately tied to the question," explains **Amit Joshi, CPC, CPC-H**, one of SuperCoding On Demand's coding consultant experts.

The screenshot shows the SuperCoding On Demand web interface. At the top, there is a navigation menu with tabs: My Profile, Subscriptions, Order History, SuperCoding On Demand, and Favorite Codes. The SuperCoding On Demand tab is active. Below the navigation menu, there is a form for submitting a question. The form has a 'Subject' field and a 'Question' field. Below the 'Question' field, there is a character count: '500 characters left'. Below the character count, there is an 'Attach File' section with an 'Upload' button. Below the 'Attach File' section, there is a 'Submit' button. A callout box points to the 'SuperCoding On Demand' tab in the navigation menu, stating: 'To get to this tab, in the main menu hover over My SuperCoder and click SuperCoding On Demand'. Another callout box points to the 'Upload' button, stating: 'Click here to navigate to the file on your system'. A dropdown menu is visible, showing 'Exclusives' and 'My SuperCoder' tabs. The 'My SuperCoder' tab is active, and it contains a list of links: My Profile, Subscriptions, Order History, Choose Your Home Page, Set Search Settings, SuperCoding On Demand, Favorite Codes, and Logout.
