

Take 1 Minute for ICD-10 Training of the Day

2015-10-28

We know you're busy, so we created ICD-10 Training of the Day to provide you with the nitty gritty on coding top diagnoses, all in about a minute a day. Click the link under ICD-10 Training of the Day on the right side of www.supercoder.com (logged out) or go directly to www.supercoder.com/icd-10.

Don't have time for all that clicking? Sign up to have the Training of the Day sent straight to your inbox.

Training of the Day includes an ICD-9 to ICD-10 crosswalk for the day's diagnosis and tips on proper coding, such as Tabular notes and commonly confused codes you should watch for.

Don't miss: Scroll down the page to reach the archive, with more than four months of tips all in one place! Check out training on headaches, SLAP tears, screening mammograms, elevated PSA, and more.
