

Take Advantage of New HCC Tool for Outpatient Coders

2016-08-10

Subscribers to Outpatient Facility Coder and Facility Coder Power Pack have a new HCC tool in their toolboxes!

Simply log in, go to your Coding Tools page, and click Coding on the left side menu. Then click HCC at the end of the list. This new addition then lets you choose from these options:

- RxHCC
- ESRD
- Medicare Advantage Plan.

After you click your choice, a new page will open to show you the HCC listings. Choose a code for additional details including an ICD-10-CM crossreference.
