

**SuperCoder's CMS 1500 Scrubber Real Time** and for **Batch Processing** scrubs claims for more than 50 top denial triggers and suggests compliance-increasing fixes.

#### **CCI Edits**

- Explains when modifier 59 is appropriate
- Improves compliance by alerting to bundled codes
- Protects payments with modifier allowed prompt
- Suggests modifier 25 application as needed

#### **Code Validation**

- Checks if ICD-9/ICD-10 code is valid for date of service
- Ensures claims aren't denied due to missing 4th or 5th digit in case of ICD 9 diagnosis codes
- Ensures claims aren't denied due to missing 4th, 5th, 6th or 7th digit in case of ICD 10 diagnosis codes
- Checks if CPT code is valid for date of service
- Checks for invalid procedure code

#### **Coding Guidelines**

- Prevents claims denials from:
  - CPT® hierarchy relationship
  - CPT® parent-child relationship
  - incorrect anesthesia modifier application
  - missing base code
  - modifier 24-code conflict
  - modifier 25-code mismatch
  - modifier 63 nonallowance
  - ICD 9 E code misordering
  - ICD 10 V00-Y99 code misordering
  - ICD 9 V code incorrect order
  - ICD 10 Z code incorrect order
- Wrong modifier based on place of service

#### **Medicare Outpatient Code Edits**

- Warns of denial due to:
  - ICD-9/ICD 10 code and gender conflict
  - CPT® code and age conflict
  - CPT® code and gender conflict

#### **Medical Necessity**

- CPT®-ICD-9/ICD 10 code CrossRef using top diagnoses submitted to insurers for procedure
- LCD
- NCD

## Medicare Physician Fee Schedule

Alerts to requirement for:

- bilateral modifier 50
- modifier 57

Prevents overbilling with check on:

- code status
- professional, technical components
- units-bilateral modifier 50

Plugs revenue drain by:

- suggesting RVU descending-value code reordering
- checking:
  - assistant surgeon allowance
  - modifier 51 exemptions
  - co-surgeons allowance
  - team surgeons permission

## Medically Unlikely Edits (MUEs)

- Stops over coding with MUE violation warning

## Patient Demographics

- Age
- Date of service
- Gender

## Private Payer

- Prevents paybacks with modifier 51 reminder
